News

12/6/06: Hello again, there is a lot going on. Big Timber will be releasing their new album "Alma" at the Larimer Lounge on December 16th. Red Cloud West will also be playing and a Big Timber/Red Cloud West split is being released that night as well. We're putting out both records and they will be available online and in stores after the 16th. There is a new band from Denver called Eyes & Ears. It is comprised of half the former members of Call Sign Cobra. They are recording a CD ep right now and we plan to release it by January. Lots of other things are in the works for next year, enjoy the holidays and stay tuned. Thanks for a great year!

8/26/06- The Facet is reuniting... for one show! The Facet will be playing Denverfest on September 2nd at the Oriental Theater in Denver. It will be awesome! In other news, Big Timber is in the middle of recording a full length that should be out before the end of the year. They'll also be hitting the road with The Reddmen in November. More to come soon...

7/9/06- Hello once again! Things have been busy so far this year. We've received a lot of positive attention this year in the local papers, thanks to everyone for the support. There is a big event Friday July 14th at The HI-Dive in Denver: Our first showcase! It will feature Machine Gun Blues, Out On Ball, The Reddmen and Big Timber. It will also serve as the Denver release show for the new album by The Reddmen. We are co-releasing their new CD, "Arsenic Ballads", in conjunction with Kit Fox. We've known these Rapid City, SD guys for a long time and are excited to be helping them out. It's now available to order and will be in stores after the show. In other news, Out On Ball just got back from a Midwest tour and Machine Gun Blues will be heading to the great Northwest in August. Big Timber will begin recording their first full length album later this summer as well. Things are moving along, thanks again for all the support!

3/21/06- Hello! The Machine Gun Blues "e.p." CD & 7" are out now. The sleeves are all different colors and sewn together. The wax comes in a few different colors too. Pretty cool. Big Timber is hitting the Midwest on tour next month and the dates are posted. Don't forget to check out our new links for getting music online. Last but not least, do yourselves a favor and got to the final Call Sign Cobra show at The Larimer Lounge on March 31st. It will be awesome! Thanks!
